

Safety Made Simple.

Napier Consulting will design, develop, implement, and continuously improve workplace safety programs based in quality management principles. Our systems are applicable for any employer, regardless of organization size, sector, or operational complexity.

If you operate a business in Canada, some form of a written workplace safety program is required by regulators, regardless of sector or jurisdiction.

Napier Consulting programs adhere to all legislative guidelines.

Reasons to have a comprehensive safety plan:

TO MAKE A RETURN

Investment in safety and health programming provides a return on investment and a measurable improvement to your bottom line.

TO SEND A MESSAGE

Send a strong message of responsibility and caring for your employees and community stakeholders' wellbeing.

TO ELIMINATE LOSS

Successful operations depend on eliminating or minimizing loss. Elimination of waste is critical for business to thrive and succeed.

TO FOLLOW THE LAW

Compliance with legislation protects your businesses from overall negative outcomes.

TO ACHIEVE SUCCESS

Aligning workplace safety with other organizational goals and key performance indicators bolsters success.

TO BE SMART

Creating a centralized, auditable, sustainable system is SMART. (Specific, Measurable, Attainable, Realistic and Timely)

Our Successes

Manufacturing Client

Successfully raised 2 branch plant corporate safety audit scores from failure to 85% and greater in 6 months after implementing a workplace safety and health management system and program.

Sustained and improved system over successive corporate safety audits.

K-12 Schools Client

Implemented a workplace safety and health management system program to bring Manitoba's second largest school district into compliance with Manitoba legislation.

Continue to sustain and improve system performance over time.
